# Release Notes «6. April 2023»

With the release of 6 April 2023, enhancements and improvements were implemented in the following areas.

Area	Details
Editor	**As soon as a PDF consists of several invoices, the splitter automatically separates the invoices into individual PDF invoices.**
DeepAdmin	**Improved error message when trying to open a YAPEAL bank account via DeepAdmin**
DeepBox	**Various improvements:** - Improved drag & drop behaviour - - Fixed an error which occurred when the same file was uploaded directly one after the other. - - Mail-to-Inbox improvements: Handling of embedded PDF documents (PDF's attached) -
Onboarding	**Email verification for share & participate invitation added extra security**
DeepSign	**Various improvements:** - New DeepSign Onboarding for MobileID - Support / Feedback feature added to DeepSign user menu

- Size of the visual signature can now be set via "deepsign pattern"
  Logic: #deepsign#e-mail;signOrder;size# → #deepsign#test[at]mail.com;2;S# oder #deepsign#test[at]mail.com;2;40#
- Better handling of DeepSign account in DeepBox after onboarding
- Fixed bug in DeepSign cockpit where rejected signatures were not displayed

- New search in the DeepSign cockpit: By file names and email addresses (of initiator, signer and observers)
- New list view in DeepSign cockpit: User can switch between tile and list view. Sorting by creation date possible in list view
