Display of reported errors

There is now an overview of the reported detection errors in the DeepO settings.

The screenshot shows the 'deepO - Einstellungen' interface for 'Abacus Demo AG'. The left sidebar contains navigation options, with 'Gemeldete Fehler' highlighted in red. The main content area displays a table of reported errors.

Status	Erstellt am	Dokument	Fehlerbeschreibung	Antwort	Erstellt von
●	15.08.2022, 18:31:48	[Redacted]	[Redacted]	Konfigurationsproblem, bitte erfassen Sie die Anschrift in den Box Einstellungen	[Redacted]
●	01.02.2023, 22:44:54	[Redacted]	[Redacted]	Erkennungsfehler, kann nicht behoben werden. Das OCR ist nicht in der Lage den Wert korrekt zu erkennen	[Redacted]
●	03.10.2023, 18:45:32	[Redacted]	[Redacted]	Erkennungsfehler, wurde behoben	[Redacted]

Below the table is an 'Aktualisieren' button.

Edit positions in side panel

The positions in the "positions" tab can now be edited in a side panel in the DeepBox Editor.

Filter faulty positions

Faulty positions can be filtered in the "positions" tab. A button can also be used to navigate to the next incorrect position.

The screenshot shows the 'Rechnung (Empfangen)' interface. At the top, there are two error banners: 'Adresse nicht im Abacus gefunden' (yellow) and 'Validierungsfehler in Positionen' (red). The left sidebar contains sections for 'Immobilien details' and 'Sonstiges'. The main area displays the 'POSITIONEN' table with the following data:

Position	Text	Datum	Von	Bis	Kontierungsreferenz	Konto	Projekt	Kostenstelle	Kostenstelle 2	Code
<input checked="" type="checkbox"/>	1	05.07.2023								
<input checked="" type="checkbox"/>	2	05.07.2023								
<input checked="" type="checkbox"/>	3	05.07.2023								
<input checked="" type="checkbox"/>	4	07.07.2023								
<input checked="" type="checkbox"/>	5									

Below the table, there is a button 'Zur nächsten Position mit Fehlern springen' highlighted with a red box. At the bottom, a green status bar indicates 'Rechnungs- und Positiontotal stimmen überein'.

Various payment issues fixed

- Fixed incorrect display of the payment date in rare cases
- Fixed incorrect display of invoice status in rare cases

Convert Word or Excel to PDF

DeepBox now offers the option of converting documents in Word (.docx) and Excel (.xlsx) format into a PDF. A copy of the original is created as a PDF within the open folder. The original document remains in the folder.

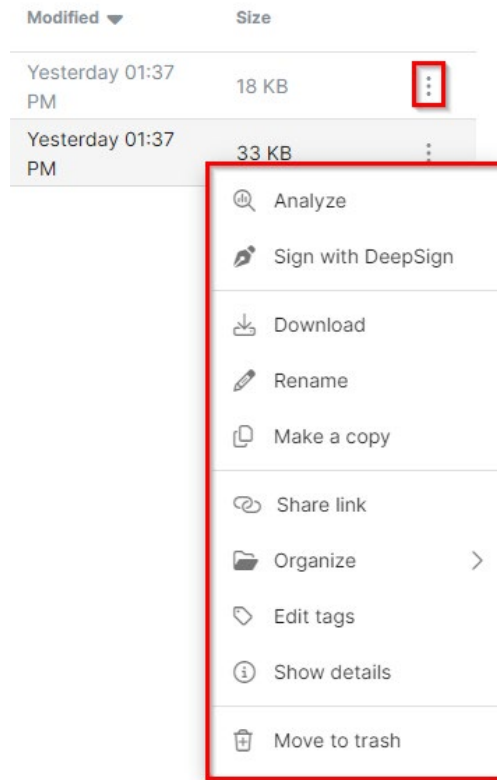

The screenshot shows a file management interface with a search bar at the top. Below it, there's a navigation bar with 'Inbox' and a 'Filter by tags' dropdown. A table lists two files: 'test_sign.xlsx' (18 KB) and 'test_word.docx' (33 KB). A context menu is open for the 'test_word.docx' file, with 'Organize' and 'Convert to PDF' highlighted by red boxes. Other menu items include Analyze, Sign with DeepSign, Download, Rename, Make a copy, Share link, Edit tags, Show details, Add Deadline, and Move to trash.

Name	Type	Owner	Modified	Size
test_sign.xlsx	Excel	Me	Yesterday 01:37 PM	18 KB
test_word.docx	Word	Me	Yesterday 01:37 PM	33 KB

- Analyze
- Sign with DeepSign
- Download
- Rename
- Make a copy
- Share link
- Organize
- Edit tags
- Show details
- Move to trash
- Move to
- Convert to PDF
- Add Deadline

Revised and optimised context menu

The DeepBox context menu has been completely revised and improved.

Various bug fixes and improvements, such as

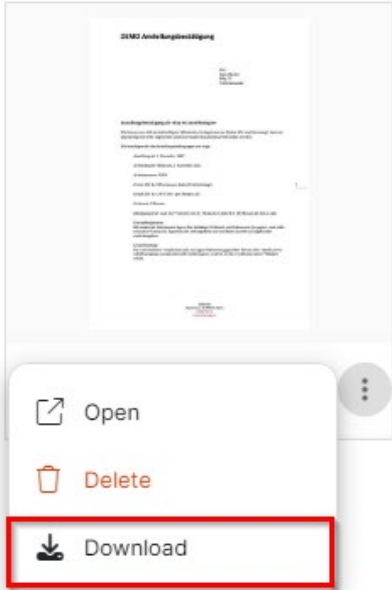

- UI optimisations and improvements
- Fixed bug where the DeepSign function was displayed despite missing permissions
- Fixed bug where some files from the search results could not be opened
- Fixed bug where uploading large files did not work in some cases

Various improvements, such as

- Optimised password suggestions
- UI optimisations for password reset, account unlock and other special login cases

Download feature in the cockpit

Completely signed documents can now be downloaded directly from the cockpit.

Various bug fixes and improvements, such as

- Improved URL logic for the different document statuses
- Fixed bug where deleting search results in the cockpit did not work properly under certain conditions
- Optimised tab navigation in the cockpit
- Fixed bug where an observer who is not part of the organisation is unable to edit the signature process
